

MEMORANDUM FOR: Honorable Zbigniew Brzezinski  
Assistant to the President for National Security Affairs

SUBJECT : Letter from Chairman Edward P. Boland

REFERENCE : Your Memorandum to the Director of Central Intelligence,  
Same Subject, dated 6 August 1979

1. I would like to urge that any response to Chairman Boland's letter acknowledge the excellent performance of his Committee and staff in the control of sensitive compartmented material. Since formation of the House Permanent Select Committee on Intelligence (HPSCI), our Office of Security has worked closely with Chairman Boland to accredit the storage facilities of the Committee and advise it on proper security procedures. Chairman Boland has always been most receptive and cooperative, which is reflected by the flawless record of his Committee to date in the area of physical security.

2. I would also like to recommend that a memorandum be sent to those Executive Branch departments which, unlike the components of the Intelligence Community, do not deal regularly with the Congress on highly sensitive compartmented material. The memorandum should reference Chairman Boland's letter, reemphasizing the President's concern about the proper control of classified material, and listing the three offices on Capitol Hill which have been certified for the receipt, storage and control of sensitive compartmented material, viz., the Senate Select Committee on Intelligence (G-308 Dirksen Senate Office Building), the Office of Classified National Security Information (S-406) and the HPSCI (H-405). It may be appropriate to have the Administrator of General Services originate this memorandum since, under Executive Order 12065, he is charged with overseeing compliance with the Order and acting on complaints and suggestions with respect to the administration of the information security program.

3. Please let me know if I can be of further assistance in this matter.

151

Frank C. Carlucci
